| 15:20 | <a href="#">Explore.Porto</a><br>Explore.Porto is a new service created by the municipality to encourage citizens and visitors to know and explore the city. It aims at providing information on points of interest and mobility solutions through a web application and signaling devices points spread throughout the city. A citizen, or visitor, equipped with a smartphone can instantly get information on the place where he/she is standing and its surroundings, as well as the best route to get anywhere | Margarida Campolargo, Head of Smart Cities Unit, Porto Digital |
